Letter

Cross-Fold

## Mail House Tabletop Folder

The EBM 1100 utilizes our patented three-roller friction feed system to process a wide range of paper stocks. Easy to use and built-in with sound absorbers for quiet operation, the folder eliminates folding by hand and is perfect for any office environment.

The EBM 1100 comes pre-programmed with six standard fold types including single, double, half accordion, letter, accordion and gate – enabling users to fold a variety of applications at the touch of a button. Using the user-friendly control panel, operators can easily select from one of the standard

**paper sizes and can also create custom fold styles** with non-standard paper sizes simply by moving the fold plates. Custom folds can be saved into one of its 10 job memories. To further extend its capabilities, the EBM-1100 comes standard with a cross folding unit to reprocess single folded sheets into right angle folds.

The EBM 1100 offers a 500-sheet feed tray capacity and feed pressure, paper separator, and skew correction adjustments can easily be fine-tuned as needed. Other features include a wire free fold plate, five speed levels, test button, and power save mode. Compact in size, the high-speed Duplo DF-970 Paper Folder is ideal for any office or print environment

# EBM MailHouse

## 1100 Folder

The EBM 1100 features a patented **three-roller friction feed system** that makes contact with the paper for precise sheet feeding.

The EBM 1100 comes pre-programmed with six standard fold types, making it easy to fold a wide range of applications at the touch of a button. Users can also create custom fold styles simply by moving the fold plates via the **user-friendly control panel** and save them in one of the 10 job memories.

Two tray positions are available for **enhanced stacking**.

Standard **cross folding** unit for right-angle folds provides greater application possibilities.
